

G T PRASHANTH

AI Developer | Full Stack Engineer | Information Science and Technology Student | <https://www.linkedin.com/in/gt-prashanth>
gtprashanth2@gmail.com | +91 63660 62095 | Bengaluru, India

CAREER OBJECTIVE

Results-driven Information Science and Technology student at Presidency University, Bangalore (CGPA: 8.9/10) with expertise in Web Development and Machine Learning. Experienced in developing full-stack applications and intelligent AI systems. Seeking a Software Engineer or ML Engineer role to design scalable systems and deliver high-impact solutions.

EDUCATION

B.Tech in Information Science and Technology

2024 - 2028 (Current)

Presidency University, Bangalore | CGPA: 8.9 / 10

Focused on Web Development, Machine Learning, OOPs, DBMS, and Data Structures. Actively building projects and competing in hackathons.

Pre-University (Class 12 / PUC) - CBSE

Completed 2024 | Score: 75%

Sri Chaitanya PU College, Bangalore

Secondary School (Class 10) - ICSE

Completed 2022 | Score: 82%

Gnana Jyoti School, Mulbagal

TECHNICAL SKILLS

Programming Languages Python, Java, C, PHP

Web Technologies HTML5, CSS3, JavaScript, React, Bootstrap, Tailwind CSS, Flask

AI & Machine Learning TensorFlow, Scikit-learn, OpenCV, Pandas, NumPy, Deep Learning

Databases & Tools MySQL, Git, GitHub, VS Code, REST APIs

Soft Skills Problem Solving, Teamwork, Communication, Time Management

ACADEMIC PROJECTS

GeoMiner AI

AI / Geospatial Resource Predictor - 2025

Tech: Python, Flask, Scikit-learn, GIS, Data Visualization

- Designed an ML pipeline to analyze geospatial maps and predict mineral distribution patterns.
- Built an interactive web dashboard to visualize prediction outputs.

AgriGeo AI (GeoSmart-Agri)

Precision Agriculture Platform - 2025

Tech: HTML5, CSS3, JavaScript, Leaflet GIS, Bootstrap

- Developed a farming platform using satellite data to analyze soil health and recommend irrigation.
- Presented at hackathons, receiving top recognition for innovation.

Interactive Code Compiler

Web Developer Tool - 2025

Tech: Java, Spring Boot, HTML5, CSS3, JavaScript, REST APIs

- Built a glassmorphic in-browser code compiler for Java, Python, and C with real-time output.
- Integrated a secure backend execution environment.

FocusLearn

EdTech Full-Stack Application - 2025

Tech: HTML5, CSS3, JavaScript, PHP, MySQL

- Created a student-productivity platform with daily planners and progress tracking.
- Implemented user authentication, dashboards, and mobile-first responsive design.

CERTIFICATIONS

- Machine Learning Specialization - DeepLearning.AI & Stanford University (Coursera)
- Geospatial Data Analysis with Python - Geospatial Association

ACHIEVEMENTS & EXTRACURRICULAR

- Won top accolades for AgriGeo AI (GeoSmart-Agri) at college and regional hackathons.
- Active open-source contributor on GitHub (EduBridge, FocusLearn projects).
- Maintaining a CGPA of 8.9 / 10 at Presidency University.
- Languages: English (Fluent), Kannada (Native), Hindi (Conversational).
